

MOTION BY SUPERVISOR MARK RIDLEY-THOMAS

NOVEMBER 20, 2012

Ensuring HIV/AIDS Medical Care Coordination

Los Angeles County has experienced unintended consequences when changing payer sources in the past. While providers, clients and the Department of Public Health have agreed that the fee-for-service medical home model is essential in providing key services, additional analysis is necessary to ensure that providers treating patients in the areas of highest disease burden are receiving the correct allocation of contract funds.

THEREFORE, I MOVE THAT THE BOARD OF SUPERVISORS: direct the Director of the Department of Public Health to report back in one year on the progress of fee-for-service medical home model implementation to include data analysis on service delivery trends and timeliness of provider payments throughout the transition.
